RECEIVED  
JUL 23 1992  
GROUP 230

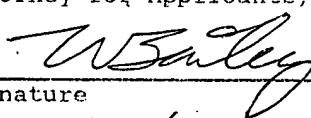

CERTIFICATE OF MAILING:  
CERTIFICATION UNDER 37 CFR 1.97(e)

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Group Director, Group 2301, Commission of Patents and Trademarks, Washington, D.C. 20231 on July 16, 1992.

I hereby certify that no item of information in the Information Disclosure Statement filed herewith was cited in a communication from a foreign patent office in a counterpart foreign application or, to my knowledge after making reasonable inquiry, was known to any individual designated in 37 CFR 1.56(c) more than three months prior to the filing of this Information Disclosure Statement.

Although the information cited in the accompanying Information Disclosure Statement was received by my office on March 30, 1992 in a USPTO Office Action in another case, S/N 07/704,577 filed May 22, 1991, the specific information contained within U.S. Patent 4,899,136, and its materiality to the present application (S/N 07/352,530) did not become known to me until I began the preparation of an amendment in response to such Office Action on or about June 22, 1992.

Wayne P. Bailey

INFORMATION DISCLOSURE STATEMENT

RECEIVED

Commissioner of Patents and Trademarks  
Washington, D.C.  
20231  
Sir:

JUL 20 1992

GROUP 230

Applicants submit herewith patents, publications or other information of which they are aware, which they believe may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 CFR 1.56.

1. U.S. Patent 4,899,136 describes a user interface display having metaphoric objects, called icons, which a user manipulates to change the input focus. This reference is different from Applicants' claimed invention in that no ability exists for dynamically associating different interface objects with a plurality of logical frame presentations based upon data within the interface object.

While this Information Disclosure Statement may be "material" pursuant to 37 CFR 1.56, it is not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 CFR 1.97(g) the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56 (a) exists.

The attached form, PTO-1449, provides a listing of patents, publications, or other information as required by 37 CFR 1.98 (a)(1).
